

Get up early and be rewarded with a guided Ecotour of the East River Marsh, a coastal wetland restored two decades ago. Paddlers will be led along a wind protected shallow water trail just over a mile in length. Preregistration is required. This course is ideal for new paddlers, those who can't paddle long distances and those interested in the environmental attributes of the Niagara River. Check in and Departure is from the East River Marsh Paddlecraft Launch area in Beaver Island State Park located at the foot of East River Road (42.96915152671838, -78.94376885170941), ***see larger map below.***
